**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Fanning on 05 April 2006.

The application has been amended as follows:

- Claim 25 has been replaced with:

--A cutting machine comprising:

a cutter;

a brake adapted to stop the cutter, where the brake has an idle position and a breaking position;

an actuation system adapted to selectively move the brake from the idle position to the braking position, where at least a portion of the actuation system must be replaced after moving the brake from the idle position to the braking position; and

wherein the at least a portion of the actuation system is a fusible member that is melted to allow the brake to move from the idle position to the braking position.--

- Claim 26 has been cancelled.

***Allowable Subject Matter***

2. Claims 1-15, 21, 25, and 34 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1-15, 21, 25, and 34 are allowable because of the apparatus with a fusible member/wire/means to trigger a reaction means as set forth in the claims. None of the prior art cited discloses an apparatus that incorporates the use of a fusible member/wire/means to trigger a reaction means to apply a brake to the cutter. Therefore, in view of what has been stated above, the claims are allowable over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
